

Accessories and others

GALAXY OF MEMORIES

A hand-painted picture combined with the technology of optical fibers evoking the sky full of shining stars. **The brightest star** is made of **crystal** and a small amount of **cremated remains**.

Over time more stars may be added to the picture.

The painting is enhanced by a pleasant ambient **LED lighting** in the frame.

Collection *See You*[®] MEMORIAL JEWELRY

Elegant jewelry from **See You collection** with fused-in ashes or locks of hair in a special resin represent the smallest item to keep your loved ones' memory alive. Wide range of options, premium quality of processing, various precious metals and individual resin colors to meet the client's needs are the main advantages of this collection. Some pendants may be worn in two different ways - with a visible side of resin to the front or hidden to the back.

Living Memories

For thousands of years, urns have been used to hold the remains of a loved one, safely and securely, after cremation. Over time, urns have become highly symbolic; the shape and design chosen to reflect the personality, tastes and interests of the person who has passed away.

For many people today, carefully choosing an urn for a loved one is a deeply poignant way of paying tribute to them. We aim to help our customers with this important decision by offering a range of urns which are all designed to be aesthetically beautiful and are created by skilled artisans using the highest quality materials. We are proud to say many of our urns have received awards at international funeral fairs. We are also introducing a range of biodegradable urns which eventually break down and return to the earth, without harming the environment.

Our unique range offers a variety of styles to suit all tastes. In addition, we are able to offer a personalised memorial plaque, so you can rest assured the urn you choose will be both a meaningful and personal tribute to your loved one. Some people keep the urn containing the ashes close by, providing comfort and ensuring the memory of the loved one stays present in the lives of those left behind. Others decide to scatter the ashes in a special place and the urn is kept as a permanent memorial. The urn can also be buried in a cemetery, marking a special place to be visited by family and friends.

We understand how important your choice is and we are here to support you with any questions you may have, so please do get in touch.
